Three units, one contract.

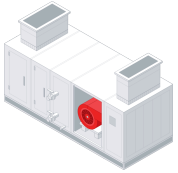

EPC

Builds the facility.

PCU & TTI

Re-equips a live fab.

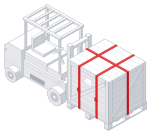

EFM

Runs and maintains it, and cuts the energy bill.

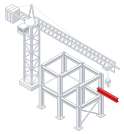

Six services, first drawing to handover

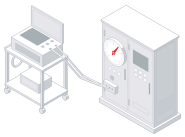

Design

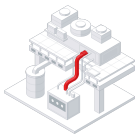

Procurement

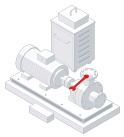

Construction

Testing and commissioning

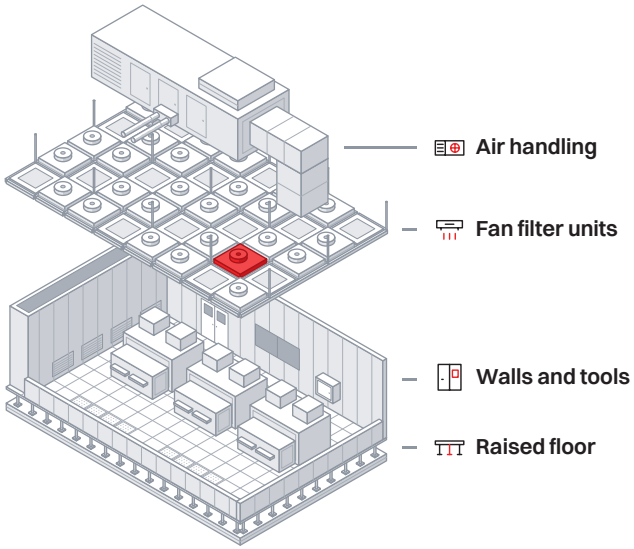

Tool hook-up

Maintenance

The cleanroom, layer by layer.

Each layer named the way the stand names it: the air handling above the ceiling, the fan filter units, the walls and tools, the raised floor.

1,050,000 m²

Of cleanroom built

The whole fab around it.
