One integrated solution.

Engineering, Procurement & Construction

Our EPC services cover the entire facility lifecycle, from engineering and design to construction, commissioning and maintenance.

Process Critical Utilities & Total Tools Installation Solutions

End-to-end EPC solutions for semiconductor facilities, from critical utilities to tool installations.

06 Maintain
Planned maintenance and energy care through the operating life.

05 Test & Commission
Systems and classification testing, verified to spec.

04 Tools Hookup
Total tool installation and hook up, bringing the line to life.

01 Design & Consult
Engineering design across CSA and MEP, setting the spec.

02 Procure
Specification led procurement, managed around long lead items.

03 Build
Construction under a disciplined safety and quality regime.

31
Years building controlled environments

7
Countries with an IAQ office, Germany among them

250+
Projects completed

1,050,000 m²
Of cleanroom built
